

PTC News

What we've been up to!

There was a flurry of activity here at PrimeTime Center during the fall season. Each month there was a special celebration leading us closer to the start of winter and a brand new year. For Halloween, we had all kinds of great costumes and games! Our Thanksgiving Feast was prepared by participants and staff this year and it was absolutely delicious!

December went as quickly as it came and we made the most of it! This year we went holiday shopping early at Five Below to make sure we purchased all of our loved ones something special. We hope you all enjoyed it! The biggest anticipation of the year is always Holiday Express and with good reason because we had an AMAZING time! The Holiday Express Band really knew how to get us into the holiday spirit. Our participants were dancing and singing with the band like they were a part of it. It was great to see all those happy faces. But the partying didn't stop there, we ended the year with an awesome holiday pajama party.

After the winter break, we were all happy to be back at PTC with our extended family. We were excited to catch up and hear what everyone did during the break. New years resolutions were shared and we were ready to get back to learning and exploring.

When planning trips, we make sure to keep it diverse and fun for our participants so they may practice a variety of skills. Our group enjoyed trips to the public library, Dunkin Donuts, 7-11, AMC movie theaters to watch the latest releases, and a scavenger hunt with our friends from Brick and Eatontown. We also continued practicing our photography skills out in the community. Of course, our most popular trips continue to be going out to eat and bowling.

Participants interests and suggestions are always a priority here at PTC. Some great trips suggested by participants were Best Buy & Barnes and Noble. Participants enjoyed browsing through Barnes & Noble and locating sections of their interest. Barnes and Noble has something for everyone! They practiced money skills and made sure to stay within budget. Our visit to Best Buy was a learning experience to help our participants become more familiar with home appliances and their prices. Many of our tech savvy participants came back asking to plan another trip!

In 2018 volunteer opportunities will be a major focus here at PTC. Volunteering will give our participants a better sense of community and will introduce them to different environments to enhance their employment readiness.
