PTC
Brick

Summer
2017

We have been so excited since the opening of our PrimeTime Brick location. Our participants have made new friendships and continue to build trusting relationships with our staff members. The day is always full between working on our independent living skills, academic skills, and community based activities. The biggest highlight has been our Open House that took place in June. We had over 100 people join us for the evening and we got to show off our amazing facility. In preparation for the occasion, we baked cupcakes, covered over 100 pretzels in chocolate, and made flower arrangements to be used as centerpieces for our tables. As a thank you gift to our visitors, we put together PTC coffee mugs that we filled with goodies and our handmade clay keychains!

Our daily trips are always varied and wide ranging. It could be as simple as going shopping to replenish our supplies for the program, to going on a day trip to the Planetarium. At the planetarium, we kicked back in our seats to experience the stars and solar system. We have also recently visited Insectropolis where we learned all about different insects and we even touched a tarantula! Our favorite trip was to the Point Pleasant Boardwalk where we visited the arcades, the aquarium, and played miniature golf.

Ms. Candice is having a baby girl! We all took a guess at our Gender Reveal Party! We loved baking cupcakes and playing games to celebrate!

We've even seen some of the biggest movies of the summer! It's always a blast hearing everyone's reviews. Even though, the weather has not always cooperated with our outdoor trips, we always came up with different options! For example, when the extreme heat advisory prevented us from going to the zoo, the participants voted to go bowling in a comfortable air-conditioned alley. We look forward to rescheduling Popcorn Park Zoo in September!

The summer gave us several opportunities to do things in conjunction with our Carteret and Eatontown locations. We had a friendly competition at Carteret's Game Day. Our group was extra successful in playing Cornhole (we did have a little advantage as we get to practice here in Brick all the time). Along with game day, we've had picnics with Eatontown and Carteret. It was great fun spending time with our friends from both places. We look forward to meeting up with them again at the end of summer at Holmdel Park.

Have you noticed that we are becoming excellent chefs in our kitchen? As we continue to experiment with new recipes and foods, we find out more about our likes and dislikes! So far, our favorite cooking day was Pizza Stromboli's! Wait till you see what we're cooking next! With Fall approaching we will continue to have new experiences and live our lives to the fullest!

Be sure to always check our website and Facebook for updates/pictures!
