

# The PTC Times

Mittens, gloves, scarves, and snow in the streets, these are a few of our favorite things. We brought in the New Year going to breakfast, bowling, the movies; as well as some other amazing outings! Some of our favorites were Yestercades in Westfield, where we got the opportunity to play our favorite games together. We also went to the planetarium where we saw a beautiful light show.

In February, we tried out an exciting new sport, Pickle ball, thanks to the Fort Monmouth Recreation Center. We also went swimming and to Dave and Busters. We loved Snapology, where we built and programmed dolphins out of Legos in teams! Our teams even raced their dolphins when completed. We also shared the love within our PTC family with a Valentine's Day Party.

In the past month, we have gone to the Patterson Museum to learn about the town's history. We visited the Rutgers Geology Museum and learned about rock formations. One of our favorite trips in the past few months was the Liberty Science Center where we learned and experimented together, about science (the FUN way).

We are so excited to announce that our new building renovations are going well! We are so excited for this new space, (especially our brand new kitchen)! Stay tuned for our **GRAND OPENING!**
